

**FREE WEBINAR**

# THE WHY, WHAT, AND HOW

**OF CONCRETE MOISTURE TESTING**

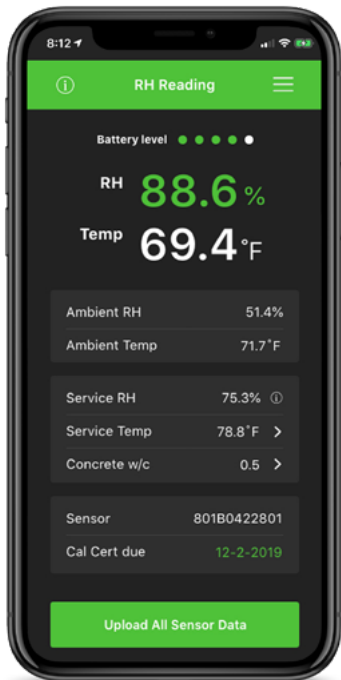

**PRESENTED BY  
JASON SPANGLER**

Flooring Sales Manager  
for Wagner Meters

Wagner Meters is proud to offer the updated webinar, "The Why, What, and How of Concrete Moisture Testing," a must-see webinar for flooring industry professionals, building inspectors, and concrete construction contractors. Get all of the knowledge and guidance you need to avoid and prevent moisture-related flooring failures with this comprehensive concrete drying and moisture testing webinar.

**WHEN:** Live Q and A opportunity (offered twice per quarter) with Flooring Division Sales Manager Jason Spangler following the 1-hour webinar. For times and dates of upcoming webinars, visit [wagnermeters.com/concrete-moisture-test/free-webinar](http://wagnermeters.com/concrete-moisture-test/free-webinar) or email us at [rapidrh@wagnermeters.com](mailto:rapidrh@wagnermeters.com) or call worldwide toll-free (844) 755-3363. Alternatively, choose "On-Demand Webinar" to view a recording of the webinar now!

# DOWNLOAD THE DATAMASTER™ L6 APP

The DataMaster™ L6 app connects via Bluetooth® to the Rapid RH® Total Reader® for a completely wireless system of reading, recording, and reporting your concrete slab moisture test data. DataMaster L6 takes advantage of an unbroken stream of data to give you the highest level of data integrity.

## Advanced Technology to Keep Your Data and Reputation Safe

- Digitally read, record, and report concrete slab data
- Trace readings to individual sensors with jobsite photos
- Email and print reports from anywhere
- Provide positive documentation of ASTM F2170 compliance

Available NOW for iPhone®, iPad®, and Android™.
